the system requirements including, where required, alert function(s) 2, display 3, recording 4 and export/archive. 6.6 An operational requirements form shall be completed for each camera in a CCTV System installation as set out in Appendix 2. Where cameras have identical operational requirements

Requirements for CCTV Installation

The CCTV system becomes pointless if the thief steals the Video Storage unit as well (DVR or NVR). So an alternative would be to have a backup of it somewhere else the robber does not know of. We can do this by using the motion detection feature in the DVR or NVR which sends snapshots when there is any motion detected.
